Dr. Richard G. Johnson
Acting Director
Office of Science and Technology Policy
Old Executive Office Building
Washington, D.C. 20500

Dear Dr. Johnson:

25X1 We were privileged in the initial running of our program on Soviet Science and Technology to have briefings by three members of your office, Maurice Roesch III, Deborah Wince, Jack Wood, and the Agency representative, [redacted]. They addressed key issues in the making of science and technology policy, with particular attention to those issues emanating from U.S.-Soviet relations. The speakers actively engaged the class in citing areas for intelligence input in the development of a science policy towards the Soviet Union.

I thank you for the participation of these impressive and articulate officers in our program.

Sincerely,

Director
of
Training and Education
